

v\_charge can be 4.2 volts  
v\_bckp must be 1.4 - 3.6 volts  
I\_bckp on the order of 15uA

We could use up to 80k here,  
but 56k should drop 0.84 volts,  
which is sufficient.

Don't use PB7 or PC10 for analog inputs

mounting holes  
for 4-40 screws

70CM  
Antenna

SMA is optional  
default is wire whip

# TeleMega
